

Here at Kokomo Foot and Ankle we are participating in text message and email notifications. These are no response text/email messages. They are simply friendly reminders notifying you of any office hour changes and occasional Holiday blessings. **NO APPOINTMENT REMINDERS** will be sent via email, they will only be sent by text. We at Kokomo Foot and Ankle are always looking to better our office for patient care and this is just a modern way to communicate office details without having to call. If you choose to participate in one or both of these services please provide contact information, check the authorization box/boxes, and sign below.
